

Home Learning by Edward

I have been home learning for 1 week now at Fyling Hall, and I find their home learning a lot better than my old school's home learning. I find theirs better because we have 6 lessons on Teams and my old school barely ever sent work and we never used Teams so you couldn't ask for help if you were stuck.

It is different from normal because in P.E. we do running and biking instead of hockey. It is very hard working because the internet can't support all 4 of us on the internet. I have to work in the kitchen with my little sister because the office is full with my Mummy and big sister.
