

Princess Athena

A long, long time ago in Athens there lived a princess called Athena. she was a very pretty girl but all her dad would let her do was stay in her room in the highest point of the tower and never come out. Athena was guarded by a ferocious dragon, which had terrifying, glowing eyes, sharp, pointy, blue scales and huge, long, purple whiskers; so she couldn't escape. Athena had beautiful eyes, as green as emeralds, and amazing hazel brown hair. Athena had been stuck in the castle for almost all her life. Her mum couldn't help her because she died when she went for a walk around the city and so that is why her dad wouldn't let her go out of the castle in case she got hurt.

One day in the castle, Athena was singing a charming, delightful song in the window. When Prince Egon (with fabulous wavy dark brown hair with lightning blonde streaks in it) walked past. He wore an olive-green jacket and some black trousers, as black as a black sapphire. He heard her from miles away but he was in love with her voice so he wanted to go and find her. The magic of Athena's voice made Egon fall in love with her and soon enough Egon was behind the dragon. Athena stopped singing and looked at him; Egon was un hypnotized by her voice and stared at her. Egon had never seen anyone so beautiful before, but to go and see her he had to get past the dragon. He went back to his huge, golden castle to think of a plan.

The next day, he came back on his lovely ginger horse and in his hand, he had a razor-sharp sword to defeat the dragon and save Princess Athena. Prince Egon hid behind the bush and started to get the dragon's attention. When he had the dragon's attention he got out from behind the bush. He swiped his sword across the dragon's huge, scaly, blue belly; red, fiery blood came oozing out of it like a

waterfall. The dragon came down with a big thud! It was dead. Egon was delighted that he had killed the dragon, but now he needed to save Princess Athena. He sneaked into the castle and went to go and find her. A few minutes later, he found her and took her from the castle to his castle to escape. Princess Athena stayed in Egon's castle for ever more, and as for her dad, he was never allowed anywhere near her ever again.

A few years later, Athena and Egon got married and had a beautiful wedding and she never saw her dad again.
